### Introduction

The information which serves as the basis for this statistical report derives from the Resident Data Bank maintained by the Computer Section of the Newark Housing Authority.

The staff of the Department of Research and Program Development constructed the statistical tables contained in this report from raw data valid as of April 1, 1973.

This date coincides with the implementation of new rents based on the annual review of income and family composition required by law (HUD-51245, Report on Annual Re-examination).

Requests for further information should be directed in writing to Aleksander Shlahet, Chief, Research and Program Development, Newark Housing Authority, 57 Sussex Avenue, Newark, NJ 07103

Explanatory Notes

Turn to Table 2A:

The percentages at the bottom of the table signify that

83.0% of all White Families are Elderly Families

30.4% of all Black Families are Elderly Families

8.5% of all Spanish-Speaking Families are Elderly Families

Now turn to Table 6:

3.0% of all Elderly Families are Overincome

2.6% of all Elderly Families are Overincome

7.7% of all Large Families are Overincome

This pattern is pursued in all racial and family type breakdowns.

\*Applicable to individuals and families displaced by Governmental action, whether by Federal, State or local action.

These limits are in terms of net annual family income as defined in the Authority's statement of policy and after applicable exemptions.

TABLE E  
HOUSING AUTHORITY OF THE CITY OF NEWARK  
BASIS FOR DETERMINING RENT

March 31, 1973

NHA RENT FORMULA: \$1 rent per month is charged for each \$55, or fraction thereof, of net annual income for rent.

"BROOKE AMENDMENT" RENT FORMULA: \$1 rent per month is charged for each \$48 of net annual income for rent.

There is a wide variance in the deductions allowed under each formula on the basis of which net annual income for rent is determined, therefore each family's gross annual income is computed using both the NHA and "Brooke" formula in order to arrive at a rent figure. In all cases the actual rent the tenant pays is the lesser of the two calculations. See Table 18.
